

# NETWORK INFRASTRUCTURES FOR INDUSTRIAL MEASUREMENTS: FUNDAMENTALS AND APPLICATIONS

seminars

MAY 27, 2024 10:00 - 12:00, lecture hall N4  
16:00 - 18:00, lecture hall N4  
MAY 29, 2024 16:00 - 18:00, lecture hall N5

via della Vasca Navale, 79/81  
Roma, Italy

*Department of  
Industrial, Electronic and Mechanical Engineering  
(DIEM)*

The seminars will be held by Alessio Andreoli, Infrastructure Architect and Cyber Security Specialist at the municipality of Copenhagen (Denmark), aiming to provide participants with fundamentals of telecommunications networks, focusing on industrial applications and providing case studies and examples.

The event will take place in Italian language as part of the **Industrial Measurements** course of the master's degree in **Mechanical Engineering**, it will be open access and held in person.  
**Registration is required by Friday, May 17, 2024**
