ON INTERNET AND BIG DATA IN ECONOMICS AND SOCIAL SCIENCES

2 - 4 JULY 2025
SCUOLA DI ECONOMIA E STUDI AZIENDALI
VIA SILVIO D'AMICO 77, ROMA

CALL FOR PAPERS

As research methods in economics and social sciences continue to advance with the proliferation of **Internet and Big Data** sources, it is becoming increasingly evident that interdisciplinary approaches are a necessity. The **7th International Conference on Advanced Research Methods and Analytics (CARMA)** offers a distinguished forum for researchers and practitioners to disseminate innovative concepts and recent developments. The objective of this conference is to examine the application of novel research methods and data sources across a range of social science disciplines, while also addressing current and future challenges in the field.

Topics of interest include, but are not limited to, the following areas:

- Internet and Big Data sources in economics and social sciences
- Big Data methods in economics and social sciences
- Internet and Big Data applications
- Digital transformation and global society

As part of this year's CARMA conference, a special issue will be published in the Italian Economic Journal. You can explore more details about the special issue and the journal.

Special Issue: Italian Economic Journal
