## Prot. n. 0014770 del 12/02/2021 - [UOR: UFFRICE - Classif. VII/16]

### Dipartimento di Matematica e Fisica

Rep. n.: 3/2021 Prot. n. 93/2021

Date: February 12, 2021

The English language version of the call does not have legal value in itself, and thus does not supersede the italian version of the call (BANDO).

### The integral version is available at the following links:

http://host.uniroma3.it/uffici/ricerca/assegni-di-ricerca.aspx http://matematicafisica.uniroma3.it//dipartimento/bandi-e-concorsi/bandi-per-assegni-di-ricerca/

#### Art.1

Pursuant to the "Regolamento di Ateneo per gli assegni di Ricerca" a public selection process is established to award ONE grant for temporary research fellowship ("assegno di ricerca") for a period – renewable – of 12 (twelve) months in the Mathematics and Physics Department:

#### **RESEARCH PROJECT:**

Development and characterization of high-granularity Micromegas detectors

The Mathematics and Physics Department of the "Roma Tre" University is involved in the development and study of new particle detectors as part of the "Resistive High-granUlarity Micromegas - RHUM" project.

This project, recently approved by the National Institute of Nuclear Physics (INFN), aims to consolidate the MPGD technology for particle fluxes up tp 10~MHz / cm² with a high-granularity low occupancy readout on pads with a dimension of the order of mm². The radiation hardness and the feasibility to build large scale detectors for future high energy physics experiments are also part of the main objectives of the project.

The research activity involves the validation and characterization of new prototypes of Small Pad Micromegas with integrated electronics, assessing their stability and functionality with different gas mixtures, and studying their aging with irradiation tests.

Experience in the field of gas detectors and in the experimental data analysis is desirable.

PhD in physics is required.

#### APPLICATION PROFILE

The interviews will be conducted remotely using the ZOOM platform.

GROSS AMOUNT (paid in monthly installments): € 27.513,00 comprehensive of all fees due by the Administration.

- The allowances is subjected to:
- the provisions of the article4 of Law 13/08/1984, n. 476 (fiscal treatment);
- the provisions of article2, paragraphs 26 and following, of the law 08/08/1995, n. 335, as further amended (social security);
- the provided in article 1, paragraph 788 of Law 27/12/2006, n. 296, as further amended (sick leave);
- the provisions of the Decree of the Minister of Labour and Social Welfare 12/07/2007, published in the Official Gazette no. 247 of 23/10/2007 (maternity).

Apart from the cases provided for and regulated by the above provisions, it is possible to suspend the research activity for a pre-determined number of months. Suspensions are given by the Board of the Department; at the end of the suspension the "assegno di ricerca" will resume or will be permanently stopped.

In all cases of suspension the payment is immediately interrupted until the date of resumption of the activities, certified by the Head of the Department.

In the case of anticipate conclusion of the research activity, the monthly installment will be paid proportionally.

#### Art. 2

To participate in the selection it is mandatory to have gained:

- a PhD in Physics.
- a proven scientific and professional curriculum suitable for carrying out the research activity for which you are competing, possibly certified by the possession of additional research training qualifications or documented and suitable experience for research activity already carried out. Should the Master's Degree have been obtained abroad, the course must be declared equivalent, solely for selection purposes, by the Academic Senate of the University. The candidate must possess the required qualification within the deadline specified in paragraph 3, under penalty of exclusion.

## Art. 3

The signed and dated application form, compiled following the scheme available at the end of this Call (<u>ANNEX A</u>) must be addressed to the Mathematics and Physics Department of Roma Tre University – Research Area

- by ordinary e-mail to the address: <a href="mailto:amm.matematicafisica@uniroma3.it">amm.matematicafisica@uniroma3.it</a> attaching a copy of a valid identity document

MUST BE SUBMITTED within the final deadline of March 12, 2021; otherwise the applicant will be excluded.

Application must include:

- Appropriate scientific and professional curriculum demonstrating aptitude for research activities;
- self declaration for the Degrees (<u>ANNEX B</u>);
- (if any) list of other titles and or previous scientific publications (ANNEX C).

#### Art. 4

The Committee will define the criteria of the selection before proceeding with the evaluation.

#### Art. 5

- 1. The research grant cannot be awarded to students enrolled in undergraduate, Master, Ph.D. or medical specialization in Italy or abroad, and involves placement on unpaid leave or employee with public administration other than those referred to in point .3 below.
- 2. Participation in the selection is not allowed for spouses, relatives and akin up to and including the 4th degree of the:
- Teaching staff of the Department which has issued this notice;
- Rector;
- General Director;
- Members of the Board Directors.
- 3. Permanent employees of Universities, Research Institutes or public bodies, the National Institute for New Technologies, Energy and Sustainable Economic Development (ENEA), the Italian Space Agency (ASI) and institutions whose scientific specialization qualification have been recognized as

- equivalent to a Ph.D pursuant paragraph, of Presidential Decree no. 382 of July 1980, cannot participate in the selection.
- 4. The research grant cannot be combined with any scholarships, except those awarded by national or foreign institutes to supplement research activities of said temporary research fellows with permanence abroad.
- 5. The grant for carrying out research activities is governed by a specific individual contract, based on the following criteria: flexibility in meeting the needs of the activity, continuity, time allocation (not sporadic), coordination with the overall activities of the Department, close relationship with the implementation of a research program, autonomous activity within the scope of the program and absence of pre-determined working hours.

Art. 6
For all matters not included here we refer to the laws and rules regarding the "assegni di ricerca"
- 71
Roma, February 12, 2021
Rep. N. 3/2021

Head of Mathematics and Physics Department of Roma Tre University *Prof. Roberto Raimondi*
