Art.1

Pursuant to the [Regolamento di Ateneo per gli assegni di ricerca](#), a public selection process is established to award ONE grant for temporary research fellowship (“assegno di ricerca”) for a period of 12 (twelve) months in the Department of Architecture.

Art. 2

DURATION OF THE RESEARCH PROJECT TO WHICH THE GRANT REFERS

12 months (renewable)

TITLE OF THE ANNUAL POST-DOC RESEARCH PROGRAM

Structural analysis of an innovative multiband antenna system with focus on wind-induced stresses

DESCRIPTION OF THE ANNUAL POST-DOC RESEARCH PROGRAM

The research program for the Post-Doc is part of a broader project aimed at developing an innovative, portable, and low-cost multiband antenna system, characterized by high resistance to wind loads and an effective tracking system in the X and Ka bands. The antenna will be equipped with a movement system to allow proper orientation and signal management.

The main activity of the research involves a thorough structural analysis of the components of the antenna system, with particular attention to wind-load actions. Specifically, to accurately estimate the interaction with the wind, CFD simulations will be necessary.

The development of the new system components also requires detailed studies and analyses of structural stresses under various working conditions, with the development of new, specially created calculation models. The final goal of the ADELE project is the creation and validation of a system comparable to a pre-production model. This system, which will be validated through open-field tests, will finally require careful verification of the achieved performance, including from a structural standpoint, to ensure it meets the identified target specifications. The expected technology readiness level (TRL) at the end of the activities is 7.

SCIENTIFIC DISCIPLINARY SECTOR (ACADEMIC DISCIPLINES FOR ITALIAN UNIVERSITY RESEARCH AND TEACHING) OF THE RESEARCH PROGRAM

ICAR/08 – Scienza delle Costruzioni (*Structural Mechanics*)
(or CEAR-06/A, according to D.M. n. 639/2024 of 02/05/2024)

REQUESTED CONTRIBUTION

The candidate must hold a Master's Degree (or a single 5-years degree) in Engineering, specializing in Civil, Mechanical, Aeronautical, or Aerospace Engineering, and must demonstrate a strong profile in structural mechanics, with knowledge in computational mechanics, particularly the Finite Element Method (FEM). Graduates in Architecture will also be considered if their study plan and/or experiences show a strong orientation towards the study of structural behavior.

A PhD in related fields of study will be considered a preferential qualification.

The candidate, who will be required to perform structural modeling using the FEM methodology and process the results of the analyses, must demonstrate high proficiency in using the relevant calculation softwares. The primary software expected to be used for this work is Abaqus; however, candidates with skills in other

structural calculation software, such as ANSYS, SAP2000, MidasGEN, Comsol Multiphysics, etc., will also be considered.

A significant portion of the research work may be conducted remotely.

GROSS AMOUNT (PAID IN MONTHLY INSTALLMENTS) COMPREHENSIVE OF ALL FEES DUE BY THE ADMINISTRATION

€ 27.631,00

The allowances are subjected to:

- the provisions of the article 4 of Law 08/13/1984, n. 476 (fiscal treatment);
- the provisions of the article 2, paragraphs 26 and following of the law 08/08/1995, n. 335, as further amended (social security);
- the provisions of the article 1, paragraph 788, of Law 27/12/2006, n. 296, as further amended (sick leave);
- the provisions of the Decree of the Minister of Labour and Social Welfare 12/07/2007, published in Official Gazette no. 247 of 23/10/2007 (maternity).

Apart from the cases provided for and regulated by the above provisions, it is possible to suspend the research activity for a pre-determined number of months. Suspension is given by the Board of the Department; at the end of the suspension the "*assegno di ricerca*" will resume or will be permanently stopped.

In all cases of suspension, the payment is immediately interrupted until the date of resumption of the activities, certified by the Director of the Department.

In the case of anticipate conclusion of the research activity, the monthly installment will be paid proportionally.

Art. 3

To participate in selection it is mandatory to have achieved:

A. **possession of a Master's degree (or single-cycle degree) in Engineering, with specialization in Civil, Mechanical, Aeronautics or Aerospace** (level II or obtained according to the system prior to the entry into force of Ministerial Decree 509/99), obtained at an Italian university, or a qualification obtained abroad; in the latter case, unless recognition in Italy of the research doctorate qualification obtained abroad has been previously obtained, the declaration of equivalence to an Italian qualification will be necessary, for the sole purpose of participating in the competition; to this end, the application for participation must be accompanied by documents useful to allow the declaration of equivalence in question by the Department Council:

- copy of the certificate of achievement of the foreign qualification, with the exams taken;
- translation into Italian or English of the certificate (if the translation is not legalized according to current regulations, the self-declaration relating to conformity with the original of the translation itself must be attached).

B. a proven and appropriate scientific and professional curriculum demonstrating aptitude for research activities, complete with attachments from which the suitability of the skills acquired for carrying out the research activity for which you are competing can be deduced.

The candidate must possess the required qualification within the deadline indicated in paragraph 4, under penalty of exclusion.

Art. 4

The signed and dated application forms, compiled following the template attached at the bottom of this Call (ANNEX A) must be received (in a single envelope for each position) no later than **09 September 2024** using one of the following methods:

- by Electronic Certified Mail at architettura@ateneo.uniroma3.it or
- by Mail at ricerca.architettura@uniroma3.it or
- Hand delivered to Dipartimento di Architettura – Area Ricerca – Via Aldo Manuzio 68L – 00153 ROMA, (from Monday to Thursday 10.30am-12.30pm and 3.00pm-4.00pm, Friday 3.00pm-4.00pm - by appointment by calling 0657332117 - 0657332969)

and **HAVE TO ARRIVE** within the final deadline of **09 September 2024** otherwise the applicant will be excluded.

Application must include:

- **appropriate scientific and professional curriculum demonstrating aptitude for research activities;**
- (if any) **autocertification for the Degrees and Ph.D. (ANNEX B);**
- (if any) **list of other titles and or previous scientific publication**, and a self-declaration asserting that all the documents and the publications correspond to the originals (ANNEX C);
- **Copy of a valid passport.**

Art. 5

The grants are awarded following a comparative evaluation based on the candidates' qualifications and an interview, which may take place via an online platform.

The Commission will define the criteria of the selection before proceeding with the evaluation.

The selection process consists of two different phases:

- 1) the evaluation of the candidate profile based on titles, CV and any other provided documentation;
- 2) an oral interview.

The evaluation of qualifications and the interview can also be carried out electronically via the 'Microsoft Teams' platform. Candidates admitted to take the oral test will be summoned by the Department's Research Area by email sent BY EMAIL, from the PEC architettura@ateneo.uniroma3.it or from the email ricerca.architettura@uniroma3.it to the PEC addresses or e-mails indicated by the candidates. They must present themselves with a suitable and valid identification document.

Candidates with disabilities, pursuant to law 5 February 1992 n. 104, must make an explicit request in relation to their disability regarding the assistance necessary to be able to take the interview.

At the end of each interview session, the Commission will prepare a ranking of the candidates with the relative score, posted at the exam venue.

The judgment of the Commission is unquestionable.

The competition procedures conclude with the formulation of a ranking of the candidates with the relative final score.

At the end of the selection procedure, the Director of the Department formalizes with his own decree the approval of the competition documents and the consequent identification of the winner of the grant, with whom the Director himself then stipulates the relevant contract.

Art. 6

1. The research grant cannot be awarded to students enrolled in undergraduate, Master, Ph.D or medical specialization in Italy or abroad, and involves placement on unpaid leave for employee in service with public administrations other than those referred to in point 3 below.
2. Participation in selection is not allowed for spouses, relatives and kin up to and including the 4th degree of the:

- Teaching staff of the Department which has issued this notice;
 - Rector;
 - General Director;
 - Members of the Board of Directors.
3. Permanent employees of Universities, research and experimentation institutes or public bodies, the National Institute for New Technologies, Energy and Sustainable Economic Development (ENEA), the Italian Space Agency (ASI) and institutions whose scientific specialization qualifications have been recognized as equivalent to a Ph.D. pursuant to article 74, fourth paragraph, of Presidential Decree no. 382 of 11 July 1980, cannot participate in selection.
4. The research grant cannot be combined with any scholarships, except those awarded by national or foreign institutes to supplement research activities of said temporary research fellows with permanence abroad.
5. The grant for carrying out research activities is governed by a specific individual contract, based on the following criteria: flexibility in meeting the needs of the activity, continuity, time allocation (not sporadic), coordination with the overall activities of the Department, close relationship with the implementation of a research program, autonomous activity within the scope of the program and absence of pre-determined working hours.

Art. 7

For anything not exposed here must be considered laws and rules regarding the “Assegni di ricerca”.
